Individual Scale Calibration Weights Adjusted to Meet or Exceed ASTM Class 5-7 Tolerances

Troemner stainless steel test weights offer uncertainties of less than 1/4 of the tolerance and are available in cylindrical, slotted and hooked designs in sizes from 1 mg – 30 kg / 0.001 lb – 50 lb.

Available with certificate options traceable to NIST, including ISO/IEC 17025 accredited certification or traceable certification to aid in meeting SOP and regulatory requirements.

Available with certificate options traceable to NIST including ISO/IEC 17025 Accredited Certificate or Traceable Certificate to aid in meeting SOP and regulatory requirements.

Product Specifications

Calibration Certificate	ISO/IEC 17025 Accredited Certificate
ASTM Class	5
Weight Value	5 lb
Design	Hanger
Weight Material	Stainless Steel
Protective Case	Available as an Accessory
Weight Tolerance	110 mg
Wgt Origin (USA)	USA
Dimensions (Height)	2.54 cm (1 in)
Construction	Two-piece
Density at 20°C	7.85 g/cm ³
Dimensions (Ø_Diameter)	12.7 cm (5 in)
Hanger Weight Capacity	500 lb
Hook Weight Diameter	0.31 in
Hook Weight Length	26 in

Hook weight	Length	36 in
Uncertain	Order information	15 mg
