Product description

Range: **0-25mm** | Resolution: **0.001mm** | Measurement accuracy: **+/-0.002mm** | Part Number: **72.108669**

The Brown & Sharpe TESA Micro-Etalon 225 Outside Micrometer has a vernier scale in inch units for taking precise outside diameter (OD) measurements, a dial indicator gauge for Go/No-Go (GO/NG) tolerance inspection, a friction drive thimble mechanism for uniform pressure during adjustment, and tungsten carbide faces for wear resistance.

The vernier scale on the thimble and sleeve is graduated to 0.002mm, with a satin chrome rust- and glare-resistant finish. The dial indicator gauge is graduated to 0.001mm. The anvil retracts by means of a push-button for quick workpiece insertion and release. The spindle and anvil have flat measuring faces and are carbide-tipped for wear resistance. A spindle lock helps provide secure locking of the measurement position. The micrometer comes with a plastic case for storage.

Micrometers are precision measuring instruments that use a calibrated screw to measure small distances. These measurements are translated into large rotations of the screw that are then able to be read from a scale or a dial. Micrometers are typically used in manufacturing, machining, and mechanical engineering. There are three types of

micrometer: outside, inside, and depth. Outside micrometers may also be called micrometer calipers, and are used to measure the length, width, or outside diameter of an object. Inside micrometers are typically used to measure interior diameter, as in a hole. Depth micrometers measure the height, or depth, of any shape that has a step, groove, or slot.

Brown & Sharpe manufactures precision measuring equipment and metrology hand tools. The company, founded in 1833, played a key role in setting industrial standards in the United States. Brown & Sharpe was acquired by Hexagon Metrology in 2001, and is headquartered in North Kingstown, RI.

Product details

Range:**0-25mm** | Resolution:**0.001mm** | Measurement accuracy:**+/-0.002mm** | Part Number:**72.108669**

Package Dimensions : 8.3 x 4.4 x 1.7 inches; 1.65 Pounds

Item model number : 599-920-116

Date First Available : May 9, 2011

Manufacturer : Hexagon Metrology

ASIN : B005006U18

Country of Origin : Switzerland

Domestic Shipping: Currently, item can be shipped only within the U.S. and to APO/FPO addresses. For APO/FPO shipments, please check with the manufacturer regarding warranty and support issues.

International Shipping: This item can be shipped to select countries outside of the U.S. [Learn More](#)
