Features

- 7.1 pounds, portable
- Patented screw press technology

- Hand-tight connectors

The Additel ADT 927 High Pressure Test Pump is a hand operated hydraulic pressure pump designed to generate pressure from -12.5psi (-0.85bar) to 10,000 psi (700bar). With the patented screw press technology, high pressures can be easily generated, increased and decreased smoothly. Without non-returning valve that is usually used on troublesome hand pumps, the ADT 927 requires minimal maintenance. Two hand-tight connectors installed on the pump allow easy connecting and disconnecting to the test pump without the need for PTFE tape or wrenches. The ADT927 is an ideal comparison test pump for calibrating pressure measuring instruments such as test gauges, indicators or transducers in the field or laboratory.

Additel 9201 Oil

1 liter Di-2-ethylhexyl Sebacate oil.

In Stock

\$185.00

Additel 9904-927 Carrying Case

Carrying case for the Additel ADT 927 pump & two ADT 681 gauges or ADT 672 calibrators.

\$429.00

Additel ADT100-HTK Hose Test Kit

5 feet of flexible hose, 8,000 or 15,000 psi range & choice of connectors.

Starting at \$293.00

Additel ADT 103 Adapter Fittings

10 piece adapter & fittings set for all Additel pumps (except ADT949).

Starting at \$1,977.00

Additel ADT 102 Adapter Fittings

25 piece adapter & fittings kit for all Additel pumps (except ADT 949).

Starting at \$1,538.00

Additel 100 Series Filters

Designed for ease of use & low maintenance with pneumatic ranges up to 600 psi & hydraulic ranges up to 10k psi.

Starting at \$409.00
