Elastomer handle is oil resistant

Limited Lifetime Warranty

Model #: H3DTW

Sku #: 564394

Internet #: 202916179

The Husky 3/8 in. Drive Torque Wrench covers a torque range of 20-100 ft./lbs. This range of torque is useful for precision work with smaller fastener sizes. Examples of applications include engine work, motorcycles, electronics and more.

- Audible click and/or impulse when torque setting is reached 3/8 in. drive ratcheting head with reversing lever
- Dual scale with SAE and metric readings
- Slip-resistant handles for comfortable use
- Large size markings are easy to read
- Torque accuracy of +/- 3% CW in the upper 80% of wrench capability
- Ball bearing signal mechanism assures repeatability, accuracy, and eliminates speed sensitivity error
- Limited Lifetime (limited to defects, does not cover calibration, normal wear and tear)
