

NEIKO PRO 03710B

3/4-Inch-Drive Adjustable SAE Torque Wrench with Torque Click Settings of 100–700 Foot-Pound, Made with CrV Steel, 48-Inch Length

About this item

- **TORQUE WRENCH:** The NEIKO professional-grade torque wrench is the perfect tool for loosening and tightening stubborn lug nuts, screws, or bolts. Use this one-direction precision instrument on the road or in your home for all your tough wrench needs.
- **TORQUE RATCHET WRENCH:** This inch-pound torque wrench and ratchet tool features a reversible function with a locking and unlocking adjustment. It also has an adjustable clicker that lets you select from the easy-to-read torque value scale.
- **LONG-HANDLED TOOL:** The wrench click stick has a 48-inch length, making it easy to loosen tough bolts at high torque settings in a range of 100 to 700 ft-lb. The handle of this wrench tool has a soft, firm grip for easy turning and pulling.
- **PRO-GRADE ACCURACY:** Using factory testing, this torque wrench is calibrated to have results of $\pm 4\%$ to assist in damage prevention on your bolts. The professional heat-treated CrV steel provides durability and shock resistance as well.
- **PORTABLE TORQUE WRENCH SET:** This automotive tool comes with an ABS custom-fitted storage case for safe and convenient storage when not in use. It also includes a key and lock for the case. Carry your torque wrench with you easily from job to job.
