1/2" Drive 250 ft-lbs Professional Series Torque Wrench

Model #: 2503CTPRH

250 Ft-Lbs Torque Wrench

The 2503CTPRH torque wrench is an industrial grade micrometer click type wrench designed for years of service. The wrench is equipped with a 1/2" dual direction quick release, 32 tooth ratchet. It has a precision laser marked scale that has a range of 30-250 Ft-Lbs with adjustment increments of 1 Ft-Lb, with a quick easy to use adjustment lock. The wrench is equipped with an over molded durable chemical resistant and ergonomic comfort grip rubber handle. It has a highly polished durable bright chrome finish. The wrench is fully repairable and easily calibrated. It is calibrated to +/-3% at any setting, meets ASME B107.14B specifications, and includes a 1 year warranty.
