About this item

- ACCURATE MEASUREMENTS:** This dial caliper has an accuracy of ± 0.002 " and is the perfect caliper measuring tool for machining or household/DIY measurements
- 4 MEASURING CAPABILITIES:** This dial caliper can be used to measure inside and outside dimensions, depths, and steps and includes 2 sets of jaws and a depth rod
- KNURLED LOCK:** Features a knurled lock screw that holds the sliding jaw in position when required; a covered rack helps prevent dirt and debris from entering it and a thumb-operated fine adjustment roller allows for one-handed use
- DIAL GRADUATIONS:** The dial hand completes one revolution every 0.1" and features a white dial with 0.001" graduations; the beam has engraved 0.10" graduations with a large, easy-to-read dial
- SET INCLUDES:** [1] Premium Dial Caliper, instruction manual, and storage case
