

NIST F Individual Scale Calibration Weights > Weight CI Hng 1lb 9.25" CLF NoCert TR

Weight CI Hng 1lb 9.25" CLF NoCert TR

Item No.: 30391613

1 lb NIST Class F Cast Iron Weight Hanger

Product details

Individual Scale Calibration Weights Adjusted to Meet or Exceed NIST Class F Tolerances

Troemner cast iron test weights offer uncertainties of less than 1/4 of the tolerance and are available in cube, cylindrical, flat and grip handle designs in sizes from 1mg – 30kg or 1lb – 50lb.

Available with certificate options traceable to NIST including ISO/IEC 17025 Accredited Certificate or Traceable Certificate to aid in meeting SOP and regulatory requirements.

Available with certificate options traceable to NIST including ISO/IEC 17025 Accredited Certificate or Traceable Certificate to aid in meeting SOP and regulatory requirements.

Product Specifications

Certificate Type	No Certificate
NIST Class	F
Hanger Weight Capacity	200 lb
Weight Value	1 lb
Design	Hanger
Weight Material	Cast Iron
Protective Case	Weight is not supplied in a case.
Dimensions (Height)	0.787 cm (0.31 in)
Calibration Certificate	No Certificate
Construction	Two-piece
Density at 20°C	7.20 g/cm3
Dimensions (Ø_Diameter)	9.53 cm (3.75 in)
Hook Weight Diameter	0.25 in
Hook Weight Length	9.25 in
Uncertainty	10 mg
Weight Tolerance	70 mg
Weight Value	1 lb
Wgt Origin (USA)	USA
Legacy Material Number	9476

Logistic Specifications

Country of origin	US
Customs tariff number	7326908688
