

QL-MH Adjustable Click Type Torque Wrench

- Knurled metal handle version of QL model.
- A clear “click” sound by the internal toggle mechanism signals tightening completion upon reaching the set torque.
- The ratchet head has 24 teeth with a 15 degree operating range, allowing for use in space-limited working conditions.
- Torque setting is easy to adjust by knob and scale.
- For CW tightening only.
- Large adjusting knob designed to enhance usability in torque setting by oily hands.
- Applicable for international use including the EU region. Compliant with calibration procedures of ISO 6789 Type II Class A.

- Accuracy +/-3% of indicated value
- Includes Factory Certificate of Calibration
- Variations: See QL Models with grips
