

GODESON DTTDG02-1

Digital Tire Tread Depth Gauge

1. Easy to read: The digital tire tread depth gauge with large LCD screen and color-coded bar. No more squinting or struggling to see the measurements. The tread depth gauge features a red range on the bar for 0-2/32nds, yellow range for 2-5/32nds, and green range for 5-32/32nds.
2. Easy to use: The tire depth gauge can be zeroed at any position for easy adjustment and precision readings.
3. Accuracy: Accurately measure your tire tread depth in both inches and millimeters with depth gauge. Range: 0-25.4mm/0-1inch, **Accuracy: 0.01mm/0.0005inch.**
4. Widely use: Our tire tread depth gauge is suitable for all types of vehicle tires, including trucks, cars, motorcycles, and pickups. No need to buy multiple gauges for different vehicles.
5. Battery saver: To preserve the included 1.5V SR44/LR battery, the depth gauge will automatically shut off after 5 minutes of inactivity. You don't have to worry about the battery running out quickly.
