

Readout Lock: locks the current measurement figure to get an accurate record.

4 Ways to Measure:

If you want to measure external diameter, just place the object between 2 long jaws and obtain its outer diameter. As for internal diameter, like a bottleneck, please insert 2 top jaws into bottleneck. Aside from jaws, an extra probe can be stretched to the bottom of bottle to measure depth. Also you can take it as a ruler to measure height and length.

Kindly Notes:

- 1. Do not immerse this caliper tool into water, otherwise, it may cause damage.
- 2. Please keep it clean and dry, as liquid will affect measurement result.
- 3. Recommended to shut off power when it is not in use to save energy.

Specification:

Material: Stainless steel

Dimensions: 24.4 x 8.9 x 1.8 cm

G.W.: 185 g/6.526 oz

Battery: 1.5V LR44 button battery

Waterproof: IP54

Packing list: 1 x digital caliper, 2 x LR44 button batteries
