Product Description

120JZ-6 Offset Dial Caliper: 0-6"

The Starrett **120JZ-6** Offset Dial Caliper has the following specifications:

- Range: 0-6"
- Graduation: .001"
- Bar Graduation: .100"
- Dial Color: White
- Revolution Range: .100"
- Accuracy: +/- .001"

This tool has an adjustable jaw for versatility when measuring different planes that can't be reached with a regular caliper. The reference jaw is adjustable in height to be either longer or shorter than the sliding jaw. All other features are the same as our 120 dial caliper.

Features:

- Only American Made Dial Caliper
- Direct reading, reliable and accurate
- Sharp, clear dial graduations
- Sharp, black graduations on the satin finished bar
- Knife-edge contacts for both inside and outside measurements
- One hand use with the thumb-operated, fine adjustment roll
- Lock screw for dial bezel and Lock screw for holding sliding jaw in position
- Hardened stainless steel bar, measuring surfaces, rack, gears and depth rod
- Positive, split-gear anti-backlash control
- Adjustable jaw – 3-1/2" (88mm) long
