The Norbar 13852 TTs 1/4" Female Hex Drive 1.2-6 Nm Adjustable Slip Type Torque Screwdriver. Norbar's new range of 1/4" Drive Torque Screwdrivers en ease of use and comfort in use. With an accuracy that exceeds the requirement of ISO6789 ($\pm 6\%$ for tools up to 10 N.m). Furthermore, they are engineered of tightened cycles.

- Supplied with a 1/4" hexagon bit holder designed using a 4mm hexagon stem.
- For maximum versatility and particularly for applications with limited access, the bit holder can be removed and replaced with widely available screwdriver blades.
- Easy torque adjustment without the need of additional specialist tools.
- All tools feature a lock to prevent accidental adjustment of the set torque.
- Accuracy exceeds the requirements of ISO6789.
- Traceable calibration certificate for the clockwise direction supplied with all adjustable tools.
- Tool 'slips' when torque is achieved removing the possibility of 'overtightening'.
- Comfortable, durable handle. The handle is constructed using two materials; a base material for strength overlaid with a soft feel grip for comfort and slip resistance.
- Length: 155 mm
- Weight: 0.235 Kg
