

52-440-777 Fowler Economy Universal Dial Protractor

The **52-440-777** economy dial protractor includes both a 6" and 12" blade.

Features:

- Easy to read, each dial revolution equals 10 degrees
- Wide spaced graduations.
- Hardened stainless steel construction throughout with a satin chrome finish.
- Includes acute angle attachment.
- Blades are beveled 45 degrees on one side and 60 degrees on other side.
- Each angle and degree is subdivided into 12 divisions so that each division measures on an interval of 5 minutes.
- Positive locking lever.

The **52-440-777** is supplied in a fitted case.
