Would not buy again

Submitted 2 years ago

Submitted as part of a sweepstakes entry

The only way to clear time is to remove the batteries. Pushing hour and minutes together does not work. Unfortunately I purchased this out of town and cannot return. So dissatisfied.

Bottom Line No, I would not recommend to a friend

I would not buy from this seller

In the small print it says that it is a high decibel alarm. Very high. Potentially ear drum damaging high. Shame on me for not reading all of the fine print first. But it seems dishonest of the retailer to not put that important fact in the general description. I threw it in the garbage. A complete waste of my money and my time.

Bottom Line No, I would not recommend to a friend

I use this timer to know when to take the dogs out and when to bring them in. I use it when I take a nap so that I won't sleep too long. I have had other timers but they only go for an hour or an hour and a half. I needed something for longer periods of time. This is a great item for the price. Easy to use, too. I need to more for my friends and family.

Bottom Line Yes, I would recommend to a friend
