Part Number	Description	Range:
HM-4471.02	Digital Indicator	.250" / 6.25mm, Resoulution: .0001" (.002mm)
HM-4470.05	Digital Indicator	.600" / 15.0mm, Resoulution: .0001" (.002mm)
HM-4471.10	Digital Indicator	1" / 25.4 mm, Resolution: .0001" (.002mm)
HM-4470.20	Digital Indicator	2.0" / 50.0mm, Resoulution: .0001" (.002mm)
HM-4471.40	Digital Indicator	4.0" / 101.6mm, Resolution: .0001" (.002mm)
HM-4471.025	Digital Indicator	0.2500" / 6.250mm, Division: 0.00005" (0.001mm)

Digital Indicators

For use in all Humboldt instrumentation. Switchable inch/metric digital indicators are accurate to ± 0.0001 (0.002mm). Feature instant "0" at any spindle position, lock in maximum reading, LCD display with .305"-high characters, infrared linear encoder. Runs either clockwise or counter clockwise. Operates with replaceable batteries or AC power with automatic shutoff. Will replace any mechanical dial gauge.
