VWR Signature™ Ergonomic High Performance Single-Channel Variable Volume Pipettors

Supplier: VWR, part of Avantor

The new, ergonomic design of the pipettors allow for consistently comfortable pipetting even with extended use.

- Superior Accuracy and Precision for Critical Applications
- Reduced Plunger Forces
- Fully Autoclavable
- Volume locking mechanism

An extended, curved finger rest allows the pipettor to balance on the index finger, and both plunger and volume-adjustment forces have been significantly reduced to eliminate the strain of repetitive pipetting

To accommodate a wide variety of tips, the easy-grip ejector system provides adjustment of the ejector height. The stainless steel... [More Product Information](#)
