

VALUELINE IP67 CAL 8 IN.

Model Number: [00599392]
Manufacturer: Brown & Sharpe

The Brown & Sharpe 00599392 Valueline IP67 series electronic calipers has a 0 to 8"/0 to 200mm measuring range with 0.0005"/0.01mm resolution and 0.001"/0.03mm accuracy for obtaining outside, inside, step, and depth dimensions for a variety of precision measurement uses. The LCD has 0.43" high digits and its function buttons control on/off, zero-set, inch/mm conversion, and mode. It permanently stores the zero-set position in Absolute mode, which saves time between measurements. A knurled clamping screw locks the slide to save a measurement. The stainless-steel frame and slide are durable and corrosion resistant, and the jaw faces are precision-ground for measuring accuracy. It has a thumb wheel slide control and a square depth rod. The calipers meet International Organization for Standardization (ISO) 13385-1 dimensional standards and it is Ingress Protection rated IP67 for protection against dust and liquids. It comes with a lithium battery and a fitted storage case. The electronic calipers is suitable for applications such as quality control for machined parts.
