Precision Outside Diameter Tapes

Pi Tape® brand Precision Outside Diameter tapes are manufactured to exacting standards in temperature controlled facilities at 68°F (20°C). The lines and numerals on our standard tapes are engraved and acid etched on a ground surface. The tapes have fixed readings that do not require periodic adjustments.

✓ Standard tapes have an accuracy of $\pm .001"$ up to 144" ($\pm .03\text{mm}$ up to 3600mm)

Each Pi Tape® brand precision measuring tape is furnished with a Calibration Report whose measurement results are traceable through NIST to the international system of units (SI).

Please click here to view our ISO/IEC 17025:2017 Certificate of Accreditation (pdf)

(https://www.pitape.com/accreditations/17025_2017.pdf).

Specialty sizes, widths and larger tapes are available upon request.

Pi Tape® - the original precision diameter measuring tape.

Precision Outside Diameter Tapes Price List (specs/Precision-Outside-Diameter-Tapes-

Price-List.pdf)

All offers, price quotes, negotiations, acceptances, agreements, obligations, deliveries, invoices, and performance relating thereto shall be deemed for all purposes to have been fully offered, provided, negotiated, accepted, executed, delivered, incurred, and performed within the State of Texas, and no contract or obligations shall be deemed to arise unless and until the same are accepted by Pi Tape Texas, LLC in the State of Texas. The rights and obligations of the parties hereunder, and any action arising from or relating to this agreement or the subject matter hereof, shall be construed and enforced in accordance with, and governed by, the laws of the State of Texas.
