

770BXTZ-258 ELECTRONIC INTERNAL MICROMETER, 3-POINT CONTACT

The Starrett 770BXT Series Electronic Internal Micrometer, with built-in Blue tooth technology, provides IP67 level of protection against coolant, water, dirt and dust in hostile shop environments. In addition, it offers extended travel, reducing the need to exchange anvils. The ground contact points seat the internal micrometer faster and more accurately than the spherical contacts found on other gages. The rugged and accurate internal micrometer is available individually or in sets from .080" (2mm) to 12" (300mm). 2-2 5/8" (50-65mm) Range, 3-Point Carbide Contact (300mm).
