In Stock

- Delivers up to 50% faster installation by replacing the hand tool or two tool installation process with the Powerstate™ brushless motor and torque wrench in one tool
- Precise torque accuracy of up to +/-2% CW, +/-3% CCW of full scale for torque critical fasteners
- Faster, more productive torque reporting with One-Key™ providing torque data and customizable reports for inspectors or owners
- One-Key technology allows for customization, tracking, tool security, and inventory management
- Adjustable run-down torque to control the tools output torque via the motor to prevent over torque

Product Summary

The Milwaukee® M12 FUEL™ 1/2in. Digital Torque Wrench with One-Key™ is the industry's first torque wrench with a motor, delivering increased productivity, precise torque accuracy, and user demanded reporting functionality. This tool delivers 50% faster installation time, replacing the hand tool or two tool installation process and providing more control to reduce the over torquing of fasteners. The 1/2in. digital torque wrench provides 12 1/2–150 ft.-lbs. of torque range and accuracy within 2% of full scale for torque critical fasteners. This battery powered torque wrench is equipped with Milwaukee One-Key giving you the power to track, report, and manage your tool. This tool will record all of the fasteners that are saved and produce a downloadable report via One-Key for the necessary parties requiring the data. One-Key allows you to wirelessly connect to a smartphone to customize the tool settings, track its location, manage inventory, and lock the tool out for added security and protection for your investment. Kit includes 2 batteries, charger and carrying case.

What's Included

(1) Milwaukee M12 FUEL 1/2in. Digital Torque Wrench, Model# 2466-22, (1) M12 battery charger(2) Milwaukee M12 RedLithium CP2.0 batteries, (1) Milwaukee Carrying case, (1) Certificate of calibration

Features + Benefits

- Delivers up to 50% faster installation by replacing the hand tool or two tool installation process with the Powerstate™ brushless motor and torque wrench in one tool
 - Precise torque accuracy of up to +/-2% CW, +/-3% CCW of full scale for torque critical fasteners
 - Faster, more productive torque reporting with One-Key™ providing torque data and customizable reports for inspectors or owners
 - One-Key technology allows for customization, tracking, tool security, and inventory management
 - Adjustable run-down torque to control the tools output torque via the motor to prevent over torque
 - Redlink Plus™ Electronic Intelligence enables advanced communication between batteries and tools for unmatched performance, protection, and productivity
- RedLithium™ batteries deliver more work per charge and more work over the life of the battery
 - Four notification modes that the tool is reaching, meeting or exceeding the torque target (audible, LED, LCD, and vibratory)
 - Four measurement modes (ft.-lb., in.-lb., Nm, Kgcm)
 - Six pre-programmed languages including English, Spanish and French
 - Durable design to withstand the most demanding jobsite environments
 - Compatible with all M12 batteries and chargers
