4001 - Process Gauge - Lower Mount

Item: 4001

Heavy duty gauges and process gauges are designed for applications where accuracy and durability are critical. Available in a wide variety of configurations, these gauges are fully adjustable and repairable for re-calibration. Phenolic cases include a solid front/blow out back design as an added safety feature.

- Dial: 4" (100 mm)
- Case: Stainless steel, dry yet fillable Welded case-to-stem connection
- Wetted Part: 316 stainless steel
- Movement: With overload/underload stops
- Bezel: Removable, stainless steel
