Veritas® - S Series Precision Balances - S622

Veritas - S622 - Precision Balance

H&C introduces our new line of full featured, high quality precision balances. The S series features the full functionality of standard precision balances in a smaller, more convenient housing. These balances are designed in Western Europe and combine unparalleled quality of materials and construction at very economical prices. Applications include piececounting, density determination of liquids and solids and percentage weighing. S series balances come with weigh below hooks, zero (tare) function, standard RS232 communications port, multiple mass unit conversions and selectable filter levels for dynamic (animal) weighing and differing environmental conditions.
